

Monday, November 11

Agenda

1. World Food Prize Project – Country & Family Research

Objectives

Examine a public policy issue by defining the problem, developing alternative courses of action, evaluating the consequences of each alternative, selecting a course of action, and designing a plan to implement the action and resolve the problem.

Warm Up

What issues of food security did you find in your FGP countries?

Homework

WFP Project due Monday.

Tuesday, November 12

Agenda

1. World Food Prize Project – Issue research

Objectives

Examine a public policy issue by defining the problem, developing alternative courses of action, evaluating the consequences of each alternative, selecting a course of action, and designing a plan to implement the action and resolve the problem.

Warm Up

What is the food security issue you have chosen for your paper?

Homework

WFP Project due Monday.

Wednesday, November 13

Agenda

1. World Food Prize Project – solution research

Objectives

Examine a public policy issue by defining the problem, developing alternative courses of action, evaluating the consequences of each alternative, selecting a course of action, and designing a plan to implement the action and resolve the problem.

Warm Up

How do you think the food security issue can be resolved?

Homework

WFP Project due Monday.

Thursday, November 14

Agenda

1. World Food Prize Project – rough draft

Objectives

Examine a public policy issue by defining the problem, developing alternative courses of action, evaluating the consequences of each alternative, selecting a course of action, and designing a plan to implement the action and resolve the problem.

Warm Up

How many sources do you have in your bibliography? Is it properly formatted?

Homework

WFP Project due Monday.

## Friday, November 15

### Agenda

#### 1. World Food Prize Project – final draft

### Objectives

Examine a public policy issue by defining the problem, developing alternative courses of action, evaluating the consequences of each alternative, selecting a course of action, and designing a plan to implement the action and resolve the problem.

### Warm Up

What do you have to complete for your project?

### Homework

WFP Project due Monday.

## Monday, November 18

### Agenda

Placing a Hospital in San Francisco  
Preview Activities

### Objectives

1. Apply geographic information from a variety of sources to interpret the past and present and plan for the future.
2. Use geospatial technologies to make and justify decisions about the best location for facilities.
3. Make inferences and draw conclusions about the physical and human characteristics of places based on a comparison of maps and other geographic representations and geospatial technologies.

### Warm Up

How can GIS be used to decide where something should be placed?

### Homework

Placing Hospital due Thursday.

Tuesday, November 19

Agenda

Placing a Hospital in San Francisco  
GIS Notes

Objectives

1. Apply geographic information from a variety of sources to interpret the past and present and plan for the future.
2. Use geospatial technologies to make and justify decisions about the best location for facilities.
3. Make inferences and draw conclusions about the physical and human characteristics of places based on a comparison of maps and other geographic representations and geospatial technologies.

Warm Up

Why is placing a hospital in San Francisco tricky?

Homework

Placing Hospital due Thursday.

Wednesday, November 20

Agenda

Placing a Hospital in San Francisco  
Put together proposal  
Create and share map

Objectives

1. Apply geographic information from a variety of sources to interpret the past and present and plan for the future.
2. Use geospatial technologies to make and justify decisions about the best location for facilities.
3. Make inferences and draw conclusions about the physical and human characteristics of places based on a comparison of maps and other geographic representations and geospatial technologies.

Warm Up

What are the benefits and drawbacks of using GIS to place a facility?

Homework

Placing Hospital due tomorrow.

Thursday, November 21

### Agenda

Evaluating Climate Change  
Preview Activities

### Objectives

1. Apply geographic information from a variety of sources to interpret the past and present and plan for the future.
2. Use geospatial technologies to make and justify decisions about the best location for facilities.
3. Make inferences and draw conclusions about the physical and human characteristics of places based on a comparison of maps and other geographic representations and geospatial technologies.

### Warm Up

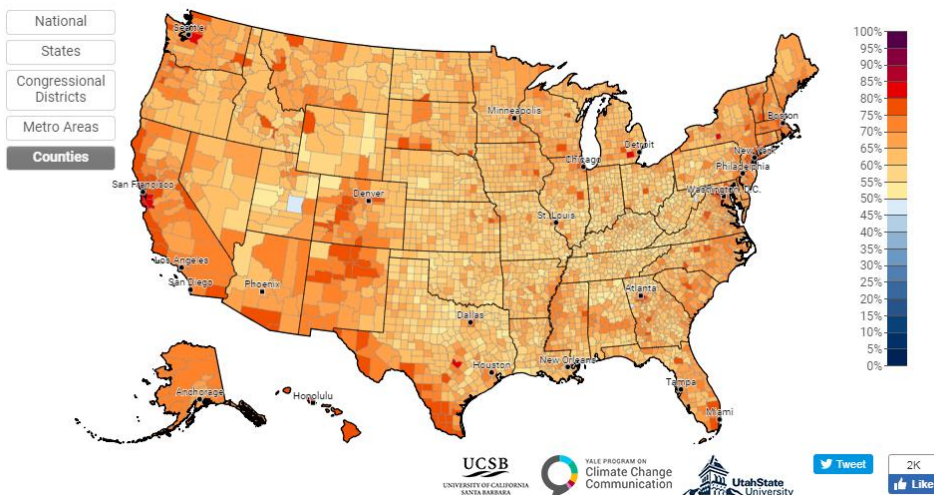

How can we use GIS to evaluate climate change?

### Homework

Climate Change due Tuesday, end of hour.

Estimated % of adults who think global warming is happening

Yale Climate Opinion Survey 2018

Friday, November 22Agenda

## Evaluating Climate Change

Finish Preview Activities

Start notes on placemarks

Objectives

1. Apply geographic information from a variety of sources to interpret the past and present and plan for the future.
2. Use geospatial technologies to make and justify decisions about the best location for facilities.
3. Make inferences and draw conclusions about the physical and human characteristics of places based on a comparison of maps and other geographic representations and geospatial technologies.

Warm Up

What areas are most affected by climate change?

Homework

Climate Change due Tuesday, end of hour.

Monday, November 25Agenda

## Evaluating Climate Change

Finish notes on placemarks

Start Rankings

Objectives

1. Apply geographic information from a variety of sources to interpret the past and present and plan for the future.
2. Use geospatial technologies to make and justify decisions about the best location for facilities.
3. Make inferences and draw conclusions about the physical and human characteristics of places based on a comparison of maps and other geographic representations and geospatial technologies.

Warm UpWhere should we be most *concerned* about climate change?Homework

Climate Change due Friday, end of hour.

Tuesday, November 26

Agenda

Evaluating Climate Change  
Finish rankings.

Objectives

1. Apply geographic information from a variety of sources to interpret the past and present and plan for the future.
2. Use geospatial technologies to make and justify decisions about the best location for facilities.
3. Make inferences and draw conclusions about the physical and human characteristics of places based on a comparison of maps and other geographic representations and geospatial technologies.

Warm Up

Review Geography. What did you like? What changes would you suggest? Advice for future students?

Homework

Be a global citizen!
